## MEMORANDUM FOR Incoming Patients

SUBJECT: Department of Medicine | Welcome Letter

Dear Patient:

Welcome to the Department of Medicine (DOM). Our goal is to provide excellent care in every aspect to our beneficiaries during your visit to our clinic(s). We are committed to providing compassionate world class healthcare to maximize readiness and the overall health of our community.

## Clinic Services Available:

### Dermatology

#### Mission

Our mission is to provide dermatological specialist care to patients of all ages presenting with acute and chronic neoplastic, infectious, and inflammatory skin diseases; as well as to accomplish the surgical management of benign and malignant skin diseases. Additionally, will conduct medical education in the specialty of Dermatology to rotating Family Practice Residents, Physician Assistant students, and medical students.

#### Treatments and Procedures Performed:

The MACH dermatology service provides medical and surgical dermatology to active-duty patients (and other eligible beneficiaries as available). Services include medical dermatology, skin cancer and other dermatologic surgery, laser surgery, and ultraviolet light treatments as medically indicated. The dermatology clinic is equipped with its own minor surgical suite, and a variety of lasers and ultraviolet devices. We can refer out for Mohs Micrographic Surgery as needed to Tricare Network Providers.

#### Providers

Joshua Smith, DO, MAJ, MC

## Cardiology

### Mission

Provide superb cardiac care to patients, soldiers and their families referred to Martin Cardiology, timely and thorough outpatient and inpatient consultative services, and provide noninvasive cardiac procedures to support the Martin Army Community Hospital mission - quality care, quality caring.

At Martin Army Community Hospital Cardiology, we are proud to provide the Fort Benning community with robust outpatient and inpatient consultative cardiology services, and serve as the subject matter experts for military medical diagnoses and disposition for our active duty population.

### We offer comprehensive noninvasive testing to include:

- Exercise stress testing
- Stress echocardiography
- Coronary CT angiography
- Transthoracic echocardiography
- Holter/event monitoring

We serve active duty, retired military personnel and their dependents. We see patients who are followed both by military and civilian primary care providers.

## Optometry

The Eye Clinics of Fort Benning have the leading providers of comprehensive eye care within our locations, with a history of providing visionary care, our goal has been to deliver excellence in eye care for patients of all ages by combining medical expertise and advanced technology with a commitment to personal attention and customer service. Basic care includes a thorough assessment of visual systems. If further testing or treatment is needed, we provide referrals to our specialty clinics, such as the Ophthalmology Clinic.

### Mission

The Fort Benning Optometry Service primary mission is to support the training programs conducted on post (basic training, Airborne School, Ranger School, Sniper School, Infantry Basic Officer Leader Course, Armor Basic Officer Leader Course, etc).

### Eligibility

Optometry primarily sees active-duty service members with space-available for family members based upon staffing.

### Clinic Services Available

The Optometry Service provides comprehensive ocular and vision care through examination, diagnosis, and treatment and supports the installation Vision Readiness and Vision Conservation programs. There are currently three Optometry Clinics:

#### 30th AG Reception Station

Located in building 3010 at 5305 3rd Infantry Division Road. This clinic is the flagship of the Optometry Service and support the Basic Training environment by performing accession exams on over 15,000 troops each year.

#### Consolidated Troop Medical Clinic (CTMC) Optometry

Located in Bldg #2515, across from the Airborne towers. This clinic primarily serves permanent party, OCS, Airborne School, IBOLC soldiers and other main post units.

#### MACH Optometry

Bldg 9250, 2nd Floor, Oak Ridge Clinic at Martin Army Community Hospital
